Dear Dr. Pace:

This is to acknowledge receipt of your email to our PSC Website Comments.

I am forwarding your email to our Docketing Department for handling. Your email will become a part of this Docket and will be posted on our website under this Docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling

Subject: Net metering

Please note that I am in very **strong support** of Net Metering in South Carolina as has been the policy in over 41 states.

I currently use Solar power in my home and this leaves more power available to others without Duke power having to build net power plant facilities. It is completely in line with President's Bush's request to curb the USA dependency on foreign fuels and in the security interest of the US

Please help us get this much needed policy passed so Regional Power companies can use consumer provided energy to make our State a more attractive area for current and future generations.
